**Conference extension:** 84328  
**Participant code:** 123456

**Want to cover the following:**

- Comments on in-well vapor stripping
- Comments on in-situ chem treatment
- Reporting - let’s discuss how best to fill out this section and what would work best (do we want tech memos after specific tasks, one larger tech memo at the end, combination of both)

Jean - For this call it would be best for me to give you control of the screen so we can use your master copy. Mine is all marked up at this point.
